SUMMARY

Motivated undergraduate student majoring in Mobile Application and Technology, with a strong passion for Full Stack Development. I have successfully contributed to various university projects, enhancing my skills during an Internship Program. Known for my adaptability and quick learning ability, I also possess strong communication skills, enabling effective collaboration in team. Eager to leverage my technical expertise and design sensibility to contribute to innovative digital solutions in a professional environment.

INTERNSHIP EXPERIENCE

SOFTWARE DEVELOPER INTERN - FULLSTACK (REACT-NATIVE, TYPESCRIPT)

ADIRA FINANCE

2025 - 2026

- Worked in an Agile - Scrum development environment, participating in sprint planning, daily stand-ups, and sprint reviews
- Developed Front End using React-Native, RESTful APIs and Back End using TypeScript and PostgreSQL to support mobile app features such as authentication, data retrieval, and reporting modules, serving internal users in production environment.
- Gained hands-on experience in end-to-end reporting workflows, including data processing and analysis
- Built data pipelines using Python and MageAI to extract and transform data into Google BigQuery, improving reporting accuracy and reducing manual processing time.

PROJECTS

HOTFORGE - THESIS FINAL PROJECT

BINUS UNIVERSITY

Mobile Application for HotWheels Community — React Native, TypeScript, Firebase Firestore
Developed a mobile app for managing digital HotWheels collections, model detection, and community interaction for Thesis Final Project. Designed a scalable NoSQL structure in Firestore with real-time sync, optimized queries (indexing, filtering, pagination), and offline-first support using local caching.

PIRING NUSANTARA

BINUS UNIVERSITY

Developed an AR mobile application using Unity and C#, Piring Nusantara, designed to showcase Indonesian cuisine through 3D models. The app provides detailed information about the food, including its ingredients, origin, and cultural significance. Integrated augmented reality technology for an immersive user experience that allows users to explore traditional Indonesian dishes interactively. Recognized as a Grand Finalist at the BINUS Hackathon 2023.

EDUCATION

BINUS UNIVERSITY

2022 - (EXPECTED) 2026

Mobile Application and Technology - Computer Science

SMA SANTO YOSEPH

2019 - 2022

ADDITIONAL INFORMATION

ORGANIZATIONAL EXPERIENCE

- | | |
|--|-------------|
| Don Bosco Rijswijk Summer Activities Volunteer (Netherlands) | 2024 |
| Teach For Indonesia Student Community Activist | 2023 - 2024 |
| Festival Fundraiser Staff by TFISC | 2023 |

LANGUAGE SKILLS

Indonesia, English, Dutch (Basic)

HARD SKILLS

Strong : Typescript, React-Native, PostgreSQL, Python
Familiar : Java, Kotlin, Swift, JavaScript, Flutter, HTML CSS
Other Tools : Git, MageAI, Docker, Jira, Bitbucket

SOFT SKILLS

Time Management, Strong communication skills, Teamwork, Adaptability, Continuous Learning, Quick learning
